

Project Name:	
Type:	

APPLICATION

Specification troffer design with hi-transmission acrylic, high performance static luminaires provide excellent visual control and subtle soft indirect illumination. It is high efficiency, great performance and value make it an ideal choice for commercial and institutional environments.

FEATURES:

- Die formed, cold-rolled, 20-gauge steel construction provides durability and strength.
- Finish in high-gloss baked white enamel over rust inhibiting phosphate coating for maximum corrosion resistance.
- High reflectance white reflector distributes light through both optical elements.
- Unique door frame design delivers a premium extruded appearance.
- Door latches and hinges from either side as standard.

SHIELDING:

 Two slope panels of the units are high transmission acrylic that provide a low-brightness glow.

MOUNTING:

- Recessed mounted in expose T-bar ceilings, Internal T-bar safety clips.
- Field installed flange kits are available.

LED:

- High quality array LEDs.
- LM80
- Color Temperature: 2700/3000/3500/4000/5000 (K)
- Color Rendering Index: > 82.8
- Calculated L70: 122,000 hours
- Reported L70: +60,000 hours

ELECTRICAL:

- High power factor electronic driver, operate from a 120~277 Vac input range, 50 / 60 Hz.
- Philips Xitanium: 0-10V Dim to 1%(PH).
- Osram Optotronic: 0-10V Dim to 1%(OS1) or 10%(OS).
- Generic : 0-10V 10% dim. (GR)
- Power Factor: +0.9
- Efficiency: +85%
- Ambient Operating Temperature:
 -22°F (-20°C) ~ 122°F (50°C).
- Constant Current, Class 2
- <ELCU-200>
- Guarantees emergency lighting remains ON or is turned on when power to the control device is lost.
- · Interfaces with fire alarm panel or security system.
- "Watchdog" feature allows emergency loads to be controlled in tandem with normal power loads.
- · UL listed for use in emergency circuits.

LISTING:

- · UL/CUL listed and labeled.
- Listed to UL 1598 and UL 8750.
- · Suitable for damp locations.
- CEC Compliant EM (please contact for more information)
- ARRA compliant.
- BAA compliant (optional)
- Made in USA.
- 7 or 10 years limited warranty. (optional) ³
- Bluetooth Mesh System available, please contact factory for more information.

HC403	Microwave bi-level Occupancy Sensor, adjustable via DIP switch 9		(Must be ordered with PHSR driver) 7
BAA	BAA(Buy American Act) and BABA(Build America Buy America)	RS-IR	IR dongle for EasySense control
	compliant		
	•		<bluetooth></bluetooth>
		PPA102S	Bluetooth Powerpack (Consult factory for installation location)

- 1. Flange kits are supplied in separate boxes, field installed.
 2. Contact factory for other emergency ballast options.
 3. This limited warranty covers electrical parts only and does not apply to labor, equipment lease, or defect from improper installation or operation.
 4. Available with C9 only.
- 5. Lumen per watt is around 15% less than standard CRI (80+).
- 6. Shipped separately.
 7. Please see Compatible Phone list in the separate attachment. If not listed, please order "RS-IR", and follow IR-Dongle user guide and NFC and IR app user's manual. Android users only.
- 8. 10. To find an approved dimmer switch, please see table 1.

 9. See Table2 to find factory setting.

HC403 FACTORY SETTING (TABLE 2)

Detection Area	100%
Hold-time	5 sec
Daylight sensor	Disable
Stand-by period (tri-level control)	10 sec
Stand-by dimming level	10%

^{*} See a separate attachment to find more setting options.

NOTES:

1. All devices connected to one FCJ/FCJS-ECO will be controlled together. Devices will dim to the same level as the result of a control command.

For more detail on adjusting low-end light level refer to Application Note#556 at www.lutron.com.

2. For the Line/Hot (L/H) terminal on the driver, it is preferred not to use the switched hot (red) wire from the control but rather the hot wire directly from the power source.
